IT WILL  
ALL COME  
AROUND

## RISE IN THE SUN

Touching the sky  
My day seems a bit brighter now  
Takin' a fly  
I'm gliding and It feels so right

I won't be jaded, it won't be wasted  
Go let my love rise in the sun  
I won't be jaded, won't leave things  
fadin'  
Let me tell you once again I wouldn't  
trade a thing I've gained

But in the end don't tell me this is  
just a plan  
In the scheme of things I'm seeing  
it all clearer now

I won't be jaded, won't leave things  
fadin'  
Go let my love rise in the sun  
I won't be jaded, won't leave things  
wasted  
Let me tell you once again I wouldn't  
trade a thing I've gained

Caught in the rays  
My blues have come to fade away  
In the scheme of things  
I know they're sure to stay at bay

For this one time, yes this one time  
Go let my love rise in the sun  
For this one time, I'll make things  
all right

Let me tell you once again I wouldn't  
trade a thing  
For this one time, yes this one time  
Go let my love rise in the sun  
For this one time, I'll make things  
all right  
Let me tell you once again I wouldn't  
trade a thing I've gained  
Let me tell you once again I wouldn't  
trade a thing I've gained

## OUT OF MY HANDS

Just need a little love to push  
on through  
But it always seems to slip through  
my fingers  
It's out of my hands, it's out of my hands  
It's out of my hands, it's out of my hands

Well it seems I better let it go  
Destiny would be the only one  
to know  
It's out of my hands, it's out of my hands  
It's out of my hands, it's out of my hands

It's not that I'm losing my soul  
But the more I act, the less I got  
control  
It's out of my hands, it's out of my hands

How I wish I could bring back the time  
When you and me were feeling so fine  
It's out of my hands, it's out of my hands  
It's out of my hands, it's out of my hands

I'd rather stand on my own  
Than be down with a broken soul  
It's out of my hands, it's out of my hands  
It's out of my hands, it's out of my hands

I'm tired of these broken souls  
So tired of these broken souls  
I'm tired of these broken souls  
So tired of these broken souls

Just need a little love to push  
on through  
But it always seems to slip through  
my fingers  
It's out of my hands, it's out of my hands  
It's out of my hands, it's out of my hands  
How I wish I could bring back the past  
And make some moments forever last  
It's out of my hands, it's out of my hands  
It's out of my hands, it's out of my hands  
It's out of my hands

## I GOT THE BOOGIE

Seven days of every week  
I got a job that I can't quit  
I needed something to set me free  
I never had a minute for me

Going to work, I feel like  
I'm going down  
Until I hear that beautiful sound  
I wanna hear sweet soul music  
Never lose a minute asleep

I got the Boogie  
Can't you handle this?  
I got the Boogie  
You can't cope with this

I painted my sunglasses in blue  
I love to look at the world right  
through  
Since I saw you walk down the street  
I never had a minute asleep

Standing like a sunflower in bloom  
I open my heart cause I'm in the mood  
You know the sun is doing his best  
He never gets a minute to rest

I got the Boogie  
Can't you handle this?  
I got the Boogie  
You can't cope with this

I never thought I could  
See it so clear  
Get rid of my trouble  
Make it disappear  
My love starts to be seen  
As I begin to sing

I got the Boogie  
Can't you handle this?  
I got the Boogie  
You can't cope with this  
Seven days of every week

I got a job that I can't quit  
I wanna hear sweet soul music  
Never lose a minute asleep

I got the Boogie  
Can't you handle this?  
I got the Boogie  
You can't cope with this  
I got the Boogie  
I got the Boogie

I never thought I could  
See it so clear  
Get rid of my trouble  
Make it disappear  
My love starts to be seen  
As I begin to sing

## IS IT SOMETHING NEW?

Is it something new that flows upon  
the notes he plays?  
Is it something new that sounds in  
every word she says?

All I do is sit around with you  
And feel the wind that's blowing in  
That's giving us a way to begin  
You start to play I find a way  
A new key to start the day

Is it something new that leans upon  
this melody?  
I heard you sing it through and  
it sounds so good to me

What'll I do?  
But sit around with you  
No ice to break, no time to wait  
Now that we have found a place  
Where our voices melt into  
A simple song for me and you

Where it leads us to, I know that I'll  
be alright  
What I feel is true with you right by  
my side  
All life through  
I'll sit around with you

And feel the wind that's blowing in  
That's giving us a way to begin

You start to play I find a way  
A new key to start the day

And feel the wind that's blowing in  
That's giving us a way to begin  
You start to play I find a way  
A new key to start the day

And feel the wind that's blowing in  
That's giving us a way to begin  
You start to play I find a way  
A new key to start the day

## IT WILL ALL COME AROUND

The sun sets down on a cold day  
The rain still hits on my window panes  
It's hard, hard, hard  
The weeks to come will seem all same  
5pm light eating on my days  
It's hard, hard, hard

When the words won't come  
When the voice sounds wrong  
Look inside  
Look around  
Take a while  
Give it time  
Stick around  
You will find  
It will all come around

I know that change is a reach away  
Wish I could break to that other  
phase in  
Time, time, time

Don't wanna ponder the reason why  
My place in life holds a question mark  
In time, time, time

When the lights are far  
And you're falling short  
Look inside  
Look around  
Take a while now  
Give it time  
Stick around  
You will find  
It will all come around

Traveling through that old storm  
of yours  
And you know you've been through  
that before  
Traveling though that old storm  
of yours

The sun sets down on a cold day  
The rain has cleared all the dark away  
And everything is fine, fine, fine

Give another try  
Make it, make it right  
Look inside  
Look around  
Take a while now  
Give it time  
Stick around  
You will find  
It will all come around

Look inside  
Look around  
Take a while now  
Give it time  
Stick around  
You will find  
It will all come around

## BOY

You looked into my eyes  
Thinking of her  
You kissed my lips  
Thinking of her  
You made love to me  
Thinking of her  
Do you think i saw it, do you think  
I felt it?

I was not born yesterday  
I saw it coming today  
I kind of felt it that way  
But it's ok, it's ok

That picture on you're wall  
Is of her  
You smoke away to bear losing her

When you write a song  
I know it's for her  
Do you think i saw it, do you think  
I felt it?

I was not born yesterday  
I saw it coming today  
I kind of felt it that way  
But it's ok, it's ok

I was not born yesterday  
I saw it coming today  
I kind of felt it that way  
But it's ok, I'm on my way

I feel you more than you could  
ever know

I feel you more than you could  
ever know

I was not born yesterday  
I saw it coming today  
I kind of felt it that way  
But it's ok, it's ok

I was not born yesterday  
I saw it coming today  
I kind of felt it that way  
But it's ok, I'm on my way

I feel you more than you could  
ever know

## SUNKEN DREAM

Lorie was a girl who built up all her world out of nothing  
She's got a bright mind and a smile but something in her eyes is a fading  
She thought she could escape from the things in life she was afraid of  
She'd rather take a run than to take a quiet walk in the sun

Waking up from a dream  
That wasn't quite what it seemed  
Waking up to begin  
A life out of this sunken dream

She always tried to find a reason to deny the real thing

Cause something in her mind has been locked from behind for ages  
She built a castle in the sky but a dreadful hollow sound became so loud  
That she couldn't hear a word from the friends who came around to save her

Waking up from a dream  
That wasn't quite what it seemed  
Waking up to begin  
A life out of this sunken dream  
Waking up from a dream

She suddenly realized she'd been

holding her breath for too long  
And now she is emerging from a dive within the depths of a dark sea  
She's coming into sight, yearning for part of a good time  
Desire is the sign that made her leave illusions behind

Waking up from a dream  
That wasn't quite what it seemed  
Waking up to begin  
A life out of this sunken dream  
Waking up  
Waking up from a dream, a dream

## SHOW ME THE WAY

Show me the way  
Give me the love  
I need today

Deep in my heart  
I hold a word  
I need to say

Show me the way  
To let my fears  
Just slip away

Show me the love  
I need to feel  
Along the way

I know I got to find a good connection  
Between my heart and my soul  
Yes I got to find a good direction  
To let go my heart and let go my soul

I trust in you  
In all you do  
You got your ways

Don't let the love  
We use to share  
Just slip away

You got a hand  
You got a friend  
To lean upon

Let go your heart  
Let go your head  
And sing your song

No I know I'll never lose affection  
Yes my love will go on  
So I got to keep a good connection  
I let go my heart, I let go my soul  
I let go my heart, I let go my soul

Where is the heart  
Where is the love  
I need to give?

Show me the way  
To let my fears  
Just slip away

You got a hand  
You got a friend  
To lean upon

So let go your heart  
Let go your head  
And sing your song

I know I got to find a good connection  
Between my heart and my soul  
When I finally find a good direction  
I let go my heart, I let go my soul,  
I let go my heart  
I let go my love, I let go my song,  
I let go my love  
I let go my love, I let go my song,  
I let go my love  
I let go my heart, I let go my soul

Show me the way  
Give me the love  
I need today

Deep in my heart  
I hold a word  
I need to say

## GIMME LOVE AND TRUTH

We don't believe in what they do  
They've got all the solutions  
But they won't stand to their position

We don't believe a word they say  
They could feed all the world  
But they'd rather starve a third

Gimme gimme gimme love  
and truth  
Gimme gimme gimme love  
and truth

Don't tell me we got no place to stay  
I wanna see better days ahead  
You got to stop steppin' on our  
heads

Tell me now, do you really want  
to take a stand  
Are you only playing talking games?  
Would you rather give a helping  
hand?

Gimme gimme gimme love  
and truth  
Gimme gimme gimme love  
and truth  
Gimme gimme love, gimme gimme  
love  
Gimme gimme gimme love  
and truth

Why can't you see what most  
people see?  
You're selling fear  
Is that a right way to lead?

Tell me now tell me now, tell me now  
the reason why  
You want to be king if love is not  
your realm

Wanna talk about the problems  
we have  
But you'd rather change our minds

Throwing your dust in our eyes

You skip across the mess that we're in  
But our problems won't be solved  
If we stick to the neon god

Gimme gimme gimme love  
and truth  
Gimme gimme gimme love  
and truth  
Gimme gimme love, gimme gimme  
love,  
Gimme gimme gimme love  
and truth

## SUNSHINE ON MY FACE

I need a sunshine on my face  
To take me to another place  
Get closer to the sun  
Cause winter time has just begun

I get a sudden need to roam  
Walking down the long way home  
I got to find my time  
I can't no more fool around

Life around is getting cold  
And all the leaves have turn to gold  
I gotta get away  
Then will come what may

Let's go out and dance, it's time  
to take another chance  
Move on to another place,  
with a sunshine on my face

Let's go out and dance, it's time  
to take another chance  
Move on to another place,  
with a sunshine on my face

With a little sunshine on my face  
With a little sunshine on my face  
With a little sunshine on my face

I need a sunshine everyday  
To delay the month of May  
Get closer to the sun  
Cause winter time has just begun

Life around is fallin' down  
And all the leaves have turned  
to brown  
All the doors are locked  
I know I got to move on up

For all the goods things I can find  
From whatever comes around  
I let it come my way  
Then will come what may

Let's go out and dance, it's time  
to take another chance  
Move on to another place,  
with a sunshine on my face  
Let's go out and dance, it's time  
to take another chance  
Move on to another place,  
with a sunshine on my face

With a little sunshine on my face  
With a little sunshine on my face  
With a little sunshine on my face
